

AHMAD AYAZ

Full-Stack Developer

ahmadayaz2022@gmail.com | +92-343-7037408 | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Full-Stack Developer with 9 months of hands-on experience in MERN Stack development, RESTful API design, and building responsive, production-ready web applications. Experienced in developing dynamic user interfaces using React.js and scalable backend services using Node.js and Express.js, with MongoDB as the primary database. Proficient in Git-based version control, API testing with Postman, and both manual and functional testing practices. Leverages AI-assisted development tools to improve productivity, code quality, and delivery speed. Passionate about clean code, continuous learning, and contributing to collaborative, fast-paced engineering teams.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, TypeScript, HTML5, CSS3

Backend Development: Node.js, Express.js, RESTful APIs, API Integration, Backend Architecture, Server-Side Development

Frontend Development: JavaScript, React.js, React Router, Axios, Material UI, Tailwind CSS, Responsive UI

Databases: MongoDB, MySQL, SQL

DevTools: Git, GitHub, VS Code, PyCharm, Postman

Testing: Manual Testing, Functional Testing, Regression Testing, Bug Reporting, API Testing (postman)

AI Tools: Claude, ChatGPT, Gemini, Copilot, Lovable, Bolt, Gamma

EXPERIENCE

Full-Stack Developer Intern

Dec 2025 – May 2026

SeeBiz Pvt. Ltd.

Lahore, Pakistan

Completed a 6-month internship under the Pakistan Software Export Board (PSEB).

SeeForce – Human Resource Management (HRM) System

- Contributed to the development and maintenance of the HRM product SeeForce using the MERN Stack (MongoDB, Express.js, React.js, Node.js), building responsive frontend modules, RESTful APIs, and integrating frontend-backend functionality.
- Collaborated with senior developers on feature implementation, debugging, testing, performance optimization, and version control using Bitbucket to ensure a seamless user experience and efficient system performance.

Full-Stack Developer Intern

Sep 2025 – Nov 2025

STACKONN

Lahore, Pakistan

- Developed ShopEasy, a full-stack MERN e-commerce application with authentication, product management, shopping cart, order processing, and responsive user interfaces.
- Built RESTful APIs, integrated MongoDB, optimized React components, and independently handled development, testing, deployment, and maintenance.

Python Programming Trainee

Jul 2024 – Oct 2024

UET Peshawar

Peshawar, Pakistan

Completed a 3-month training program under the Prime Minister Youth Skill Development Program (NAVTTTC).

- Gained strong proficiency in Python programming, Object-Oriented Programming (OOP), and Data Structures & Algorithms (DSA) through hands-on coding, problem-solving, and real-world projects.
- Applied Python concepts to develop applications, automate tasks, and improve debugging, code optimization, and software development best practices.

EDUCATION

BS Software Engineering

2021 – 2025

The University of Haripur, Pakistan

PROJECTS

ShopEasy (Full-Stack E-commerce Application) | MERN Stack (MongoDB, Express.js, React.js, Node.js)

Developed a full-stack e-commerce web application using the MERN Stack, featuring user authentication, product management, shopping cart, order processing, and responsive UI. Built RESTful APIs, integrated MongoDB, and independently handled frontend and backend development.

SeeForce (Human Resource Management) | MERN Stack (MongoDB, Express.js, React.js, Node.js)

Contributed to a company product HRM system by developing frontend modules (registration, login, dashboard, employee management) and backend APIs with database integration and authentication. Worked on feature enhancements, testing, and performance optimization.

Pharmacy Management System (POS) | MERN Stack (MongoDB, Express.js, React.js, Node.js)

Developed a full-stack Pharmacy Management & POS system to manage inventory, sales, billing, customers, suppliers, and stock tracking. Implemented authentication, role-based access, RESTful APIs, MongoDB integration, and a responsive UI with sales reports and real-time updates.

UOH Admission Chatbot | AI Chatbot

Developed an AI-powered admission chatbot for the University of Haripur to assist students with admissions, programs, eligibility, fees, and application processes. Built using python, grok api, and Gradio for UI and integrated with LLMs to provide real-time, user-friendly guidance for BS, MS, and PhD admissions.

CERTIFICATIONS

- Generative AI Application Developer — Pak Angels (IcodeGuru X Aspire Pakistan)
- Advanced Python Programming and its Applications — NAVTTC Pakistan
- Google AI Essentials — Coursera (Google)
- Google Cybersecurity Professional Certificate — Coursera (Google)
- Programming for Everybody: Getting Started with Python — Coursera
